Terms and Conditions – Annual Service Maintenance

The terms and conditions (T&C) set forth in this document describes our Annual Service Maintenance which you ordered on Order for Equipment and Service which reference this T&C.

Term of Maintenance

The initial terms for the Annual Service Maintenance shall be based on the date of original purchase of equipment and/or agreement, as referenced on the order, and at our then current rate. The terms offered on the current in house maintenance plans are 2 year or 3 year annual agreements. United Ag & Turf may modify this T&C upon sixty (60) days prior written notice which shall become effective unless you notify us otherwise in writing at least (30) days prior thereto. Payment must be received by UAT no later than thirty (30) days from the invoice date.

The initial term for Service Maintenance and any renewable term are non-transferable.

The Service Maintenance agreement is valid only for the owner named on the Order for Equipment. The Service Maintenance agreement is void if equipment is sold or transferred to a different owner. Any remaining term of the Service Maintenance agreement may remain in effect for the machine it was purchased on, if the equipment is traded into an authorized United Ag & Turf location.

Scheduling Maintenance Service – Service Timeframe

The primary Service Maintenance program timeframe will be from October through February annually. Estimated timeframe for maintenance during this time will be approximately 1 – 2 weeks. If machines are scheduled for service outside of this timeframe, estimated timeframe for maintenance may be out over 3 weeks. The estimated time for pickup/delivery and maintenance service will vary by each United Ag & Turf location and will be discussed in detail at time of scheduling. United Ag & Turf will send out notifications to all customers who purchased maintenance plans in early October each year through text messaging and/or email, and periodic notifications regarding scheduling service and plan expiration dates throughout the year. Customer is fully responsible for scheduling services with United Ag & Turf by the one-year anniversary date from the Maintenance Agreement purchase date. If maintenance is not performed within 1 year, the agreement for that term is forfeited. (Ex. Customer purchased a 3 -year maintenance plan and did not schedule service within 1 year of the first year of the agreement. The first year is forfeited and only 2 years of annual service remain).

United Ag & Turf's Responsibilities

United Ag & Turf is responsible for performing all service under this agreement. Pick up and delivery is an additional charge that must be purchased at time of scheduling or initial maintenance plan sale. We will prepare an Order listing the equipment which will be covered under this Annual Service Maintenance. We will provide Factory OEM parts necessary to repair the equipment. This maintenance agreement does not take precedent over a manufacturer's warranty for parts, our obligations are subject to manufacturer's availability of parts. In such event, we agree to meet with you to discuss alternative solutions and pricing which may include, but are not limited to, alternative products, maintenance, or upgrades. United Ag & Turf is not responsible for the following: any equipment that has been altered or modified in ways not approved by John Deere or outlined in the owner's manual, including but not limited to, damage caused by normal wear, neglect of proper maintenance (ex. flat tire, damaged body, dead battery), failure to follow operating instructions or recommendations, misuse, lack of proper protection during storage, vandalism, the elements, collision, or accident.

Customer Responsibilities

Customer shall provide a valid email address and cell phone number at time of initial purchase to receive notifications of service and updates from the manufacturer. Customer agrees to permit or arrange for United Ag & Turf service personnel to have immediate access to the Customer's premises/property where equipment originally purchased, on order, is stored in the event United Ag & Turf is responsible to pick up equipment for service purposes. In the event United Ag & Turf's personnel are required to make additional trips to pick up equipment due to the unavailability of access to the premises/property, there will be an additional travel charge.

Pickup and Delivery – Relocation of Equipment

Pick up and delivery of equipment will be an extra charge if not purchased with maintenance plan. The location the equipment will be held/stored will be reflected on the Service Order. Additional service charges will apply for mileage over 30 miles from a United Ag and Turf location. In the event the customer moves or transfers the equipment outside of the originally assessed mileage zone, additional charges will apply for the extra mileage. Any additional estimated mileage charges will be discussed at time of scheduling annual maintenance service and will require prior customer approval.

Service Hours

Service for maintenance will be conducted during normal operating hours. Pricing for this service does not include after-hour services or field service. If service is needed outside of normal operating hours, or field service is requested additional rates will apply. Please refer to www.UnitedAgAndTurf.com for each location's hours.

Billable Services or Exclusion from Service

In addition to the charges set forth on the Service Order, you will be invoiced at our current rates for service performed by us due to any of the following circumstances. Any additional charges found by United Ag & Turf will be subject to Customer's approval before work is completed. Theft, strikes, riots, vandalism, acts of war, lightning, water, fire and other perils; Work performed by persons other than our personnel or without our supervision; Shock, corrosive atmosphere, electrical damage, accident, air conditioning or humidity control failure; Service calls necessitated by products not serviced by us; Normal wear and tear of disposable items; Time required to identify or isolate a problem due to an alteration or repair made by you or another entity other than United Ag & Turf; Any cause other than your ordinary and proper use of the Equipment; Damage due to an act of God. Defects or Equipment failure pre-existing (non-warranty equipment or used equipment) the Service Order date of this Annual Maintenance are excluded from this T&C unless otherwise noted. We reserve the right, at your expense and at our current rates, to inspect any equipment that has not been serviced by us immediately prior to the Service Order date of this Annual Maintenance Service to require that any nonconforming equipment meet our and/or the original manufacturer's specifications.
